When the air conditioner in your 2000 Honda Civic starts blowing hot air, you likely have a freon leak. Recharging the freon in your AC system is an inexpensive and easy first step to restoring the cooling capacity of your A/C system. Most refrigerants include a leak sealer that will seal small leaks in addition to filling the R134a refrigerant. The A/C system in your Civic consists of a compressor that is belt-driven, an evaporator and freon.

How to Add Refrigerant to a 1996-2000 Honda Civic - 2000 ...

The use of air conditioning is a normal part of summer driving no matter where you live. If you are Florida resident, you use your air conditioning more than you do your heater. The Honda OEM AC condensers that are part of your Honda vehicle are designed to work with the engineering that Honda has provided in the assembly of your car.
