bands according to their level of CO₂ emissions, with cars in higher bands generally being subject to higher rates of road tax.

The bandings were completely overhauled from April 1 2017, so that most cars registered after that date will belong to a higher band than previously.

The interior differences

between a full fat M3 and one of BMW ' s lesser 3 Series M Sport models are quite subtle. You do get a sexy set of front sports seats and some M Sport coloured stitching on the door panels and steering wheel, but the biggest difference is additional buttons mounted to the right of the gearshift.
