Wikipedia

While psychology did not emerge as a separate discipline until the late 1800s, its earliest history can be traced back to the time of the early Greeks. During the 17th-century, the French philosopher Rene Descartes introduced the idea of dualism, which asserted that the mind and body were two

File Type PDF A History Of

The term psychology was first encountered in philosophical books of the 16th century. It was formed from two Greek words "Psyche" (soul) and "logos" (doctrine). By soul, was meant the principle underlying all the phenomena of mental and spiritual life. The modern ideas about mind and its functioning were derived from
