This lucidly written text, in its second edition, continues to provide a comprehensive study of the classical political tradition from Plato to Marx. The book elucidates the fascinating evolution of the history of political ideas, through the works of thirteen key political thinkers — which includes Plato, Aristotle, Machiavelli, Hegel and Marx. The text highlights the decline and

## Online Library A History Of Political Theory George H Sabine

revival of classical political theory and portrays the clash of universalism vs. localism in the classical tradition. It focuses on the recent interpretations of the classical texts, for instance, feasibility of the ideal State in Plato; civic humanism and republicanism in Machiavelli; the radicalism of Locke, and the contributions to the woman's cause by John Stuart Mill. The text is intended for the undergraduate and postgraduate students of Political Science of various universities, and for all those who are appearing for the civil services examinations. NEW TO THIS EDITION : Inclusion of two important liberal thinkers, Mary Wollstonecraft, the founder of liberal feminism, and Immanuel Kant, a de-ontological liberal. Addition of an Appendix on John Rawls who is credited as a seminal thinker of contemporary times, having played a crucial role in the revival of normative political theory.

Both a history and an examination of human thought and behavior spanning three thousand years, thrillingly traces the origins of political philosophy from the ancient Greeks to Machiavelli in Book I and from Hobbes to the present age in Book II. Whether examining Lord Acton's dictum that "absolute power corrupts absolutely" or explicating John Stuart Mill's contention that it is "better to be a human dissatisfied than a pig satisfied," Alan Ryan evokes the lives and minds of our greatest thinkers in a way that makes reading about them a transcendent experience. Whether writing about Plato or Augustine, de Toqueville or Thomas Jefferson, Ryan brings a wisdom to his text that illuminates John Dewey's belief that the role of philosophy is less to see truth than to enhance experience. With this unparalleled tour de force, Ryan emerges in his own right as one of the most influential political philosophers of our time.

## Online Library A History Of Political Theory George H Sabine

History of Political Theory: An Introduction not only explores the great works of Western political theory but demonstrates their continuing relevance. Volume II traces the origin and development of liberal political theory, and so the foundations for contemporary views. The work provides a readable, scholarly introduction to the great figures in Western political theory from Hobbes to Marx. Major theorists examined include Hobbes, Locke, Hume, Montesquieu, Rousseau, Burke, Mill, and Marx, not only major figures in the liberal tradition but liberal political theory's most important critics. Theorists are examined in their historical contexts, with extensive quotations allowing them to speak for themselves. Central concepts employed in their works are carefully examined, with special attention to both how they fit together to form coherent theories and how they bear on issues of contemporary concern. Major concepts examined include freedom, rights, political obligation, and revolution. Emphasizing depth rather than breadth, this work is an ideal introduction tool for instructors who have been searching for a text that combines careful exposition of important political theorists and clear, critical analysis.

This volume continues the story of European political theorising by focusing on medieval and Renaissance thinkers. It includes extensive discussion of the practices that underpinned medieval political theories and which continued to play crucial roles in the eventual

## Online Library A History Of Political Theory George H Sabine

development of early-modern political institutions and debates. The author strikes a balance between trying to understand the philosophical cogency of medieval and Renaissance arguments on the one hand, elucidating why historically-suited medieval and Renaissance thinkers thought the ways they did about politics; and why we often think otherwise.

Contemporary theory of international politics faces a twofold problem: the critical engagement with legacies of national power politics in connection to 20th Century International Relations and the regeneration of notions of humanity. This book contributes to this engagement by a genealogy of thoughts on war, peace, and ethics.

Combines historical and theoretical analysis, setting political thought in the context of various frameworks of the modern world. From the impact of the French and American revolutions, through reaction and constitutional consolidation, this book traces the contrasting criteria invoked to justify particular forms of political order from 1789.

A collection of penetrating essays on political thought - past, present and future - by a major commentator.
