A Laboratory for Art: Harvard's Fogg Museum and the ...

Each minute in a functioning lab is like a page of a smart novel that loses meaning without reference to what came before and is about to follow. Art, like science, is such an experience, and, yet, we encounter art and science in our museums more frequently as outcome, as product – dug up, carved down, highly edited – that follows a mysterious process of creative thought and engagement.

Artscience | The Laboratory at Harvard

A Laboratory for Art is the first book to explore the crucial role the Fogg played in the evolution of conservation in the US and abroad. It traces the efforts of staff and students who developed protocols for the treatment and documentation of works— sometimes through trial and error; disseminated research findings by establishing professional forums and a seminal journal; set standards for ...

A Laboratory For Art Harvards Fogg Museum And The ...

Harvard Art Museums research curator Francesca Bewer remarks in her book A Laboratory for Art: Harvard's Fogg Art Museum and the Emergence of Conservation in America, 1900-1950 that he then began a passionate exploration into the process of how paintings were made. This interest led to collecting the materials needed for the preservation of fine artworks alongside his own collection of early Italian paintings.

The Sensory Ethnography Lab (SEL) is an experimental laboratory that promotes innovative combinations of aesthetics and ethnography. It uses analog and digital media, installation, and performance, to explore the aesthetics and ontology of the natural and unnatural world. Harnessing perspectives drawn from the arts, the social and natural sciences, and the humanities, SEL encourages attention to the many dimensions of the world, both animate and inanimate, that may only with ...
