The only reason that "A Voyage to Arcturus" is classified as a science fiction book is that it takes place on another planet that required a rocket ship for our hero to reach it. The fact is Tormance, the planet revolving around the binary star Arcturus, could have easily have been another "realm" or "dimension" that could have been accessed by a looking glass or a pair of ruby slippers.

A Voyage to Arcturus is a novel by the Scottish writer David Lindsay, first published in 1920. It combines fantasy, philosophy, and science fiction in an exploration of the nature of good and evil and their relationship with existence. Described by critic, novelist, and philosopher Colin Wilson as the "greatest novel of the twentieth century", it was a central influence on C. S. Lewis' Space Trilogy, and through him on J. R. R. Tolkien, who said he read the book "with avidity".

The three set off in a crystal ship from an abandoned observatory in Scotland. An interstellar voyage is the framework for a narrative of a journey through fantastic landscapes. The story is set at Tormance, an imaginary planet orbiting Arcturus, which, in the novel (but not in reality) is a double star system, consisting of stars Branchspell and Alppain.
