"Gerhard Maier's African Dinosaurs Unearthed details exactly how one of the world's biggest caches of dinosaur fossils was excavated and recovered... a fascinating story well told by a professional palaeontologist who really knows what he is writing about."--New Scientist "In African Dinosaurs Unearthed, Gerhard Maier presents the full, detailed story of the Tendaguru excavations, from the discovery of the site by Bernhard Sattler in 1906 to the most recent works of 2001.

African Dinosaurs Unearthed, The Tendaguru Expeditions by ...

Fossils of K. aethiopicus have been found only in the Tendaguru Formation, dated to the late Kimmeridgian and early Tithonian ages, about 152 million years ago. Hundreds of bones were unearthed by German expeditions to German East Africa between 1909 and 1912. Although no complete skeletons are known, the remains provided a nearly complete picture of the build of the animal.

Kentrosaurus - Wikipedia
