Afrocentrism has its origins in the work of African and African diaspora intellectuals in the late 19th and early 20th centuries, following social changes in the United States and Africa due both to the end of slavery and the decline of colonialism. Following the American Civil War, African Americans in the South gathered together in communities to evade white control, established their own ...

The ethnic groups of Africa number in the thousands, with each population generally having its own language (or dialect of a language) and culture. The ethnolinguistic groups include various Afroasiatic, Khoisan, Niger-Congo and Nilo-Saharan populations.. The official population count of the various ethnic groups in Africa is highly uncertain, both due to limited infrastructure to perform ...

The Slave Coast is a historical name formerly used for that part of coastal West Africa along the Bight of Benin that is located between the Volta River and the Lagos Lagoon. The name is derived from the region's history as a major source of Africans that were taken into slavery during the Atlantic slave trade from the early 16th century to the late 19th century. Other nearby coastal regions historically known by their prime colonial export are the Gold Coast, the Ivory Coast, and the Pepper Coa
