?Essays on Human Anatomy. Free Examples of Research Paper ...  
A babysitter is being tried for the death of a 10-month old infant. The prosecutor contends the child died as the result of being violently shaken. The defense claim that the child's head became struck in the slates of his crib and, in trying to twist frees, he broke his neck. The medical examiner testifies under oath that the child died as the result of compression of the spinal cord ...
