This book is a step-by-step guide to producing a sound foundation for advertising: one that will serve as the springboard to inspire powerful creative expression. Rich in cases from the evolving Indian context, *Planning for Power Advertising* offers an understanding of how strategic advertising is created. It takes the reader through cases and analyses of what worked or did not work in the marketplace. Anand Halve involves the reader throughout in exercises with Action Points at the end of most chapters—an approach that brings alive the concepts within, and helps readers discover the theory in practice. For advertising professionals, this is a

Malaysia, a quiet minority which consists of the former Indian Tamil plantation labour community and the urban Indian middle-class. The first part of the book explores the role played by British colonial laws and policies during the British colonial period in Malaya, from the 1890s to 1956, in the construction of an Indian "race" in Malaya, the racialization of labour laws and policies and labour-based mobilisation culminated in the 1940s. The second part investigates the mobilisation trends of the Indian community from 1957 (at the onset of Independent Malaya) to 2018. It shows a gradual shift in the Indian community from a "quiet minority" into a mass mobilising collective or social movement, known as the Hindu Rights Action Force (HINDRAF), in 2007. The author shows that activist lawyers and Indian mobilisers played a

traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with

botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.
