Through counterfactual experiments, we study the housing boom-bust around the Great Recession, with three main results. First, the main driver of movements in house prices and rents was a shift in beliefs, not a

Download Free Boomer Bust Economic And

change in credit conditions.
Second, the boom-bust in
house prices explains half
of the corresponding swings
in nondurable expenditures
through a wealth effect.

have actually benefited
society. They reveal that
bubbles start when investors
and speculators react to new
technology or political
initiatives, showing that
our ability to predict
future bubbles will

Download Free Boomer Bust Economic And

ultimately come down to
being able to predict these
sparks.
