This Dene-English story book was produced by the students and teachers of Ducharme Elementary School in La Loche, Saskatchewan, with assistance from local advisors and elders. Together, they wrote the story, translated it, and worked on the pictures. Their goal was to highlight some aspects of Dene culture that were vital in the past and are still important today. They wanted to show the continuity of a genuine and successful way of life, and emphasize culturally-significant events and attitudes. To produce the book, over 400 hundred students provided ideas for the story line and art samples for the illustrations. Two hundred letters went out to the community families, asking for ideas and information with regard to story content. A dozen elders were consulted to provide accurate and culturally-correct information. A teacher committee of six worked on the project for two years. Byron Through the Seasons is a story told by Grandfather Jonas and imagined by his grandson, Byron. The balloon diagram in each picture represents the symbolic journey taken by Byron as he listens to stories of what Dene life is like during the four seasons of the year.

Grandfather Jonas talks about the seasons, recalling significant things and events in the daily life of the Dene people.

An invitation to return to a simpler time of earth-based spirituality and ritual living, through writings from a small forest-farm in the Appalachian Highlands. This book looks at the agricultural year as a starting space for a deepening of earth-centered spirituality. It gives a set of backstories to ease the reader into a time between the pre-industrial era and the modern one, into a place where the fast-moving stress of American life can be affected by a better connection not only to the natural world but to the elegant expression of the year as expressed through seasonal festivals and celebrations. The chapters are broken into four seasons, with the quarter days a highlight within each, and feature simple skills that accompany each marker in the year. Author H. Byron Ballard offers advice on spiritual and physical immersion into the seasons that applies to readers from all areas: rural, urban, and suburban. This is also a deeply practical book, including insights into the following: Farming & gardening: composting, manure, soil preparation, pests, seed-saving Food: cooking, preserving, foraging, the summer kitchen, mushrooms and mycelium Fiber arts: knitting, crocheting, spinning, weaving, decorative cut-work, and embroidery Sewing: treadle machines, electric machines, hand sewing Household crafts: candle-making, soap-making, broom-making, sharpening tools Health: medicines, tending the dying, death and death rituals A glossary is included for any unfamiliar terms.

The first comprehensive guide to addressing Native American issues in teaching children.

A History Lesson? As long as there have been vampires, there has been the Slayer. one girl in all the world, to find them where they gather and to stop the spread of their evil and the swell of their numbers. As if real life wasn't already overflowing with vampire-staking, now Buffy has begun to dream about slaying! Night after night, it's the same thing. She's back with the Puritans, a Slayer on the trail of a witch. What can it mean? Buffy gets a clue when Xander and Giles start acting like they have ancient alter egos. Now the stage is set for a symbolic replay of the night the Master was accidentally trapped in the other dimension. Only this time, the Master wants a happy ending -- for himself. Buffy and her friends must pervert the Master from rewriting the script and escaping his supernatural prison before Sunnydale becomes history!

Land, Water, and Sky for Grades K–2 from Hands-On Science for British Columbia completely aligns with BC's New Curriculum for science.
