The New York Times best-selling series continues with the half-mermaid embarking on an icy and perilous journey to the Land of the Midnight Sun. Strange storms are blowing up from the ocean, caused by the nightmares of Neptune, King of the Sea. Convinced that his dreams herald an approaching threat, Neptune enlists half-mermaids Emily Windsnap and Aaron for a top-secret mission to find and eliminate the source of the trouble. But Emily and Aaron quickly get in over their heads in the frigid waters of the frozen north. Deep within an alpine lake where magical reflections show what could be rather than what is, the two discover a trove of stolen memories and Neptune's darkest secret. Double-crosses and double-takes abound in Liz Kessler's fifth magical mermaid adventure.

This is the true story of the journey of the Midnight Sun Mosque. In 2010 a Winnipeg-based charity raised funds to build and ship a mosque to Inuvik, one of the most northern towns in Canada's Arctic. A small but growing Muslim community there had been using a cramped trailer for their services, but there just wasn't enough space. The mosque travelled over 4,000 kilometers on a journey fraught with poor weather, incomplete bridges, narrow roads, low traffic wires and a deadline to get on the last barge heading up the Mackenzie River before the first winter freeze. But it made it just in time and is now one of the most northern mosques in the world. This beautiful picture book reminds us that the collective dream of fostering a multicultural and tolerant Canada exists and that people of all backgrounds will come together to build bridges and overcome obstacles for the greater good of their neighbors.

sheltered evangelical household as a young child, while she lived with her grandparents. When she was taken away from her idyllic surroundings in northern Sweden to live with her mother and her new stepdad in Denmark, her life changed drastically. At seventeen as an au pair girl in England, she met a handsome Muslim, a medical student from Uganda, which changed her life forever. The memoir describes her joys, her struggles to fit in, and her grief of losing loved ones. It's an unusual story about a young woman's journey through a life filled with love, trauma, and tragedy, and how she survived one loss after another. It is a story of how deeply grief and trauma can change a person. But, also how a fighting spirit, resilience, and strength, combined with a generous, forgiving heart, sometimes can overcome the most difficult challenges.

A MAJOR MOTION PICTURE STARRING BELLA THORNE! A heartbreaking tale of love, loss and one nearly perfect summer -- perfect for fans of The Fault In Our Stars and Love, Simon. Seventeen-year-old Katie Price has a rare disease that makes exposure to even the smallest amount of sunlight deadly. Confined to her house during the day, her company is limited to her widowed father and her best (okay, only) friend. It isn't until after nightfall that Katie's world opens up, when she takes her guitar to the local train station and plays for the people coming and going. Charlie Reed is a former all-star athlete at a crossroads in his life - and the boy Katie has secretly admired from afar for years. When he happens upon her playing guitar one night, fate intervenes and the two embark on a star-crossed romance. As they challenge each other to chase their dreams and fall for each other under the summer night sky, Katie and Charlie form a bond strong enough to change them -- and everyone around them -- forever.

While the Klondike Gold Rush is one of the most widely known events in Canadian history, particularly outside Canada, the rest of the Yukon's long and diverse history attracts little attention. Important developments such as Herschel Island whaling, pre-1900 fur trading, the post-World War II resource boom, a lengthy struggle for responsible government, and the emergence of Aboriginal political protest remain poorly understood. Placing well-known historical episodes within the broader sweep of the past, Land of the Midnight Sun gives particular emphasis to the role of First Nations people and the lengthy struggle of Yukoners to find their place within Confederation. This broader story incorporates the introduction of mammoth dredges that scoured the Klondike creeks, the impressive Elsa-Keno Hill silver mines, the impact of residential schools on Aboriginal children, the devastation caused by the sinking of the Princess Sophia, the Yukon's remarkable contributions to the national World War I effort, and the sweeping transformations associated with the American occupation during World War II. Completely revised with a new epilogue, the bestselling Land of the Midnight Sun was first published in 1988 and became the standard source for understanding the history of the Yukon. Ken Coates and William Morrison have published ten books together, including Strange Things Done: A History of Murder in the Yukon and the forthcoming Trailmarkers: A History of Landmark Aboriginal Rights Cases in Canada. Land of the Midnight Sun was their first collaboration.
