Outline of Classical Chinese Grammar is a comprehensive introduction to the syntactical analysis of classical Chinese. Focusing on the language of the high classical period, which ranges from the time of Confucius to the unification of the empire by Qin in 221, the book pays particular attention to the Mencius, the Lǎnyu, and, to a lesser extent, the Zuǎnzhuǎn texts. Outline of Classical Chinese Grammar starts with a brief historical overview and a discussion of the relation between the writing system and the phonology. This is followed by an outline of overall principles of word order and sentence structure. The next sections deal with the main sentence types □ nominal predicates, verbal predicates, and numerical expressions, which constitute a special type of quasiverbal predication. The final sections cover such topics as subordinate constituents of sentences, nondeclarative sentence types, and complex sentences.

Yufa! A Practical Guide to Mandarin Chinese Grammar takes a unique approach to explaining the major topics of Mandarin Chinese grammar. The book is presented in two sections: the core structures of Chinese grammar, and the practical use of the Chinese language.
