Color and Meaning by John Gage - Paperback - University of ...

In addition to one ' s cultural background, it seems gender also seems to influence the extent of a person ' s ability to perceive colour. When a group of Nepalese people of both genders was asked to list the names of every colour they could think of, results were strikingly different between men and women.

Colour and Culture: Similarities and Differences

In the western culture, blue is associated with melancholy and depression. It is quite interesting to see how the same colour holds completely contrary connotations in different cultures. On the other hand, blue is also seen as synonymous with royalty, that is why the term "blue blood" is used to denote a certain hierarchy in western culture.

The Meaning Of Colors In Different World Cultures: TripHobo

Colors play an important role in our lives. They can remind us of a place, a time of year, or our favorite traditions, and can also shape the way we feel. But when it comes to what different colors symbolize in cultures around the world, these associations can vary greatly.
