This multidisciplinary book focuses on best practices in sustainability research in the Asia-Pacific Region. Drawing links between research, practice, education for sustainability and the needs of industry, it addresses the sustainable development goals (SDGs). The book also presents research undertaken by a wide range of universities on matters related to sustainable development, in order to promote research in this area across multiple disciplines. Four key themes are explored: (1) Education for Sustainability. (2)

Download Ebook Comparative Study Of Uber And Regular Taxi Service

Sustainable Cities. (3) Sustainable Buildings. (4) Sustainable Infrastructure. This unique book documents and disseminates the wealth of know-how on sustainable development research in the Asia-Pacific Region today. It presents lessons learned and comparative case studies from various countries, including India, China, Indonesia, the Philippines, Bangladesh, New Zealand and Australia.

and privacy, optical communication, and ubiquitous/pervasive computing. Many of the papers outline promising future research directions. The book is a valuable resource for students, researchers and professionals, and also offers a useful reference guide for newcomers to the field.

This book examines how regulators and policymakers from nine different countries have dealt with Uber, and initiates a legal dialogue between different jurisdictions that could potentially pave the way to a harmonized approach in regulating Uber. The case studies, conducted in Brazil, Germany, Italy, Mexico, Spain, South Africa, Turkey, the UK and the US reveal the case law and regulatory responses that

Download Ebook Comparative Study Of Uber And Regular Taxi Service

have been adopted in various areas of law. Legal issues relevant to Uber include market regulation, labor law, civil liability, consumer protection, unfair competition and antitrust law. The book thus compares and contrasts the regulatory policy implications of the disruptive innovation created by Uber in the area of transport services. The book starts with a conceptual overview of the legal challenges posed by Uber and concludes with comparative findings based on the individual case studies. In addition to introducing academics and legal practitioners to the theoretical and practical legal problems they may encounter in connection with Uber, the book will especially appeal to policymakers, who can benefit from and compare the experiences of other jurisdictions.

This Symposium volume discusses comparative perspectives as constituents of History of Religion as an academic discipline and the validity of comparative studies in the field of religion. The papers deal with the origin of comparative studies in European scholarship, with the methods and the role of the phenomenology of religion, with comparative Indo-European mythology, and, on the whole, address a wide range of comparative issues.

Comparative Research on Education: Overview, Strategy and Applications in Eastern and Western Europe is a two-part book that first gives an overview and an appraisal of the comparative research on education. Then, the book presents

Download Ebook Comparative Study Of Uber And Regular Taxi Service

examples of the type of investigation that is defined as "comparative research on education." Comparative research studies in Western as well as in Eastern Europe are covered in both parts of the book. This book will be useful to students of comparative education as it presents pertinent examples of how empirical methods can be employed in dealing with central problems in education.

This advanced historical linguistics course book deals with the historical and comparative study of African languages. The first part functions as an elementary introduction to the comparative method, involving the establishment of lexical and grammatical cognates, the reconstruction of their historical development, techniques for the subclassification

Download Ebook Comparative Study Of Uber And Regular Taxi Service

of related languages, and the use of language-internal evidence, more specifically the application of internal reconstruction. Part II addresses language contact phenomena and the status of language in a wider, cultural-historical and ecological context. Part III deals with the relationship between comparative linguistics and other disciplines. In this rich course book, the author presents valuable views on a number of issues in the comparative study of African languages, more specifically concerning genetic diversity on the African continent, the status of pidginised and creolised languages, language mixing, and grammaticalisation.
