A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author of Nixonland and The Invisible Bridge comes the dramatic conclusion of how conservatism took control of American political power. Over two decades, Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics. With the saga 's final installment, he has delivered yet another stunning literary and historical achievement. In late 1976, Ronald Reagan was dismissed as a man without a political future: defeated in his nomination bid against a sitting president of his own party, blamed for President Gerald Ford 's defeat, too old to make another run. His comeback was fueled by an extraordinary confluence: fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism; business executives uniting against regulation in an era of economic decline; a cadre of secretive " New Right " organizers deploying state-of-the-art technology, bending political norms to the breaking point—and Reagan 's own unbending optimism, his ability to convey unshakable confidence in America as the world 's " shining city on a hill. " Meanwhile, a civil war broke out in the Democratic party. When President Jimmy Carter called Americans to a new ethic of austerity,

Download Ebook Conservative Movement Emerges Guided Answer Key

Senator Ted Kennedy reacted with horror, challenging him for reelection. Carter ' s Oval Office tenure was further imperiled by the Iranian hostage crisis, the Soviet invasion of Afghanistan, near-catastrophe at a Pennsylvania nuclear plant, aviation accidents, serial killers on the loose, and endless gas lines. Backed by a reenergized conservative Republican base, Reagan ran on the campaign slogan “ Make America Great Again ” —and prevailed. Reaganland is the story of how that happened, tracing conservatives ' cutthroat strategies to gain power and explaining why they endure four decades later.

The American Promise has long been a course favorite for its readability, clear chronology, and the voices of Americans that animate the book. Now with new co-authors, the eighth edition continues to deliver a strong narrative with political backbone and offers a new pedagogical design that reinforces that history is a discipline rooted in debate and inquiry. The American Promise has primary sources in each chapter, a full-color map and art program, and comprehensive supplement options, including LaunchPad and a free companion sourcebook. Available for free when packaged with the print book, the popular digital assignment and assessment options for this text bring skill building and assessment to a more highly effective level. The greatest active learning options come in LaunchPad, which combines an accessible e-book with LearningCurve, an adaptive and automatically graded learning tool that--when assigned--helps ensure students read the book; the complete companion reader with comparative questions that help students build arguments from those sources; and many other study and assessment tools. For instructors who want the easiest and most affordable way to ensure students come to class prepared Achieve Read & Practice

First published in 1976, and revised in 1996, George H. Nash ' s celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field. This new edition, published in commemoration of the volume ' s thirtieth anniversary, includes a new preface by Nash and will continue to instruct anyone interested in how today ' s conservative movement was born.

In response to the ever-changing challenges of teaching the survey course, Understanding the American Promise combines a newly abridged narrative with an innovative chapter architecture to focus students' attention on what's truly significant. Each chapter is fully designed to guide students' comprehension and foster their development of historical skills. Brief and affordable but still balanced in its coverage, this new textbook combines distinctive study aids, a bold new design, and lively art to give your students a clear pathway to what's important.

Originally published: New York: Doubleday, 2016.

The Conservative Mind: From Burke to Eliot by Russell Kirk is arguably one of the greatest contributions to twentieth-century American Conservatism. Brilliant in every respect, from its conception to its choice of significant figures representing the history of intellectual conservatism, The Conservative Mind launched the modern American Conservative Movement. A must-read. (Abridged edition)

A leading conservative thinker argues that a nationalist order is the only realistic safeguard of liberty in the world today. Nationalism is the issue of our age. From Donald Trump's "America First" politics to Brexit to the rise of the right in Europe, events have forced a crucial debate: Should we fight for international government? Or should the world's nations keep their independence and self-determination? In *The Virtue of Nationalism*, Yoram Hazony contends that a world of sovereign nations is the only option for those who care about personal and collective freedom. He recounts how, beginning in the sixteenth century, English, Dutch, and American Protestants revived the Old Testament's love of national independence, and shows how their vision eventually brought freedom to peoples from Poland to India, Israel to Ethiopia. It is this tradition we must restore, he argues, if we want to limit conflict and hate -- and allow human difference and innovation to flourish.
