developed to meet Common Core! The frequent, focused practice improves math skills, and each title includes downloadable home-school connection activities. How it works: Students complete five short math problems on days 1-4.

This Daily Practice series helps your students use their skills, so they won't lose them. There are five problems a day, every day, for 36 weeks. The practice activities are set up in a spiraling scope and sequence so that students practice skills at regular intervals. Each week's problems are based on a grade-level appropriate topic so every time a skill shows up, it has a new context, requiring students to dig into their memories, recall what they know, and apply it to a new situation. Correlated to state and national standards, this six book series provides daily math and daily language practice for grades 6, 7, and 8.

Using standardized testing formats, math skills are kept sharp with focused practice in computation, word problems, graphing, measurement and numbers. Includes scope and sequence charts and answer keys.

Provides teachers and parents with 180 daily-practice activities to build and gauge students' mathematical fluency. Each problem is tied to a specific mathematical concept. Provides practice in algebraic thinking, numbers and operations, measurement and data, and geometry. Digital resources include assessment tools
