I loved the twists and surprises in book 2 of Dark Space Universe. Each time I thought I had figured out a story line it changed into something I had not considered. From extradimensional polopuses to an unknown number of Abaddons coexisting inside leadership and a five year old girl the exquisite drama kept me reading at the cost of things that went undone.

Dark Space Series by Jasper T. Scott - Goodreads

So I hit play on Dark Space, and sat back to enjoy William Dufri's reading of it. For the most part, Dark Space is a very enjoyable (if thin and light) science fiction novella. Calling it a novel seems unfair as the audio clocks in at under six hours and the book itself is just 200 pages long. Comfortably I'd say it's a novella.

A STANDALONE SEQUEL TO THE BEST-SELLING DARK SPACE SERIES THE UNIVERSE IS DARKER THAN WE THOUGHT... Lucien Ortane is a Paragon in the Etherian Empire. His job is to explore the universe and spread Etherian doctrines of peace, justice, and immortality to sentient beings everywhere. Like all Paragons, and most citizens, Lucien believes that Etherus, the benevolent ruler of the Empire, is exactly who he claims to be: the one true God and creator of the universe. But not everyone is a believer. The Academy of Science circulates a petition to send a mission to the cosmic horizon and learn the true nature of the universe. Over a billion people sign it, and Etherus grants their request, but with a dire warning: evil is lurking in the dark.

Undaunted by this warning, three hundred million scientists from the Academy prepare to leave the Empire on what will be the longest and most incredible journey in history. A small group of Paragons also join the mission, each of them for their own reasons. Lucien Ortane tells himself that he's going in order to settle other people's doubts, and to keep a bunch of hapless scientists safe. After all, he's a Paragon, one of Etherus's most faithful servants. Yet even the faithful have doubts. Is the universe infinite? Does it have an edge? Is it shaped like a sphere, or connected like a torus? Did it need a creator, or does it cycle endlessly, god unto itself? These are the questions that the Academy is trying to answer, but the answers they get could be their undoing. God or not, Etherus was telling the truth about one thing: evil is lurking in the dark...

A MISSION TO THE COSMIC HORIZON REVEALED AN EVIL AS OLD AS TIMELucien, Garek, Addy, and Brak are all that's left of the Inquisitor's crew. Eight years ago they left the Etherian Empire aboard the Astralis with three hundred million scientists to learn the true nature of the universe, but now Astralis is surrounded by a hostile race of alien slavers, called the Faros, while the Inquisitor's crew has been forced to abandon ship and flee to parts unknown.Lucien and his crew are trying to find a way to rescue their people, but they don't have a ship, and they don't even know where to look, let alone how to fight back against a seemingly innumerable and invincible foe.Meanwhile, Abaddon, the leader of the Faros invaded Astralis for a reason. He has a plan, and it's time to execute it--along with everyone who stands in his way.

Brady Garrett is back on Earth. He's living with his partner Cam and they're raising his sister Lucy together. Life is better than some feral reffo from Kopa has any right to hope, and Brady knows it. He's even grateful for it, most of the time. He loves Cam, even though he's afraid that he's not good enough for him, and he's still having nightmares about the alien Faceless. Cameron Rushton loved being a pilot once, and he still feels the pull of the starlight. He's building a life with Brady now, and with Lucy. Life is good, even if it's not without its complications. Both Brady and Cam are dealing with the endless cycle of interviews, tests, and questions that the military hierarchy hopes will reveal the secrets of the aliens who could very easily destroy humanity. They have each other though, and together they're making it work. But from out in the black, Kai-Ren is still watching and everything Brady and Cam think they've won, they stand to lose all over again.

The Sequel to the #1 Best-Selling Space Opera in the UK, Dark Space. New to the series? Get Dark Space 1 here for a special price: goo.gl/tdPKU THEIR SHIP IS DAMAGED Ethan Ortane has just met his long lost son, Atton, but the circumstances could have been better. After a devastating bio-attack and the ensuing battle, they've fled Dark Space aboard the Defiant to get away from the crime lord, Alec Brondi, who's just stolen the most powerful vessel left in the Imperial Fleet--the Valiant, a 5-kilometer-long gladiator-class carrier. THEY ARE LOW ON FUEL They need reinforcements to face Brondi, but beyond Dark Space the comm relays are all down, meaning that they must cross Sythian Space to contact the rest of the fleet. Making matters worse, they are low on fuel, so they can't jump straight there. They'll have to travel on the space lanes to save fuel, but the lanes are controlled by Sythians now, and they are fraught with entire fleets of cloaked alien ships. AND THERE IS NO WAY OUT With Brondi behind them, they can't go back, and they can't afford to leave the last human sector in the galaxy to the crime lords, so they must cross through enemy territory in the Defiant, a damaged, badly undermanned cruiser with no cloaking device. Making matter worse, trouble is brewing aboard the cruiser, dropping their chances of survival from slim . . . to none.

The exciting conclusion of the Dark Space Universe SeriesDEATH IS THE ONLY WAY OUTAstralis is surrounded. The lost Etherian fleet has arrived with old friends at the helm, but the Faros are there, too, and they're demanding we give them the lost fleet, or else.Lucien Ortane is determined to fight, while everyone else fears defeat and wants to negotiate. The future of humanity and countless other species hangs in the balance, but they are badly outnumbered--a million to one. If war breaks out, the Faros will win, and trillions of people will be killed or enslaved. There is only one path to victory, but will Lucien have the courage to take it?

Brady Garrett needs to go home. He's a conscripted recruit on Defender Three, one of a network of stations designed to protect the Earth from alien attack. He's also angry, homesick, and afraid. If he doesn't get home he'll lose his family, but there's no way back except in a body bag. Cameron Rushton needs a heartbeat. Four years ago Cam was taken by the Faceless--the alien race that almost destroyed Earth. Now he's back, and when the doctors make a mess of getting him out of stasis, Brady becomes his temporary human pacemaker. Except they're sharing more than a heartbeat: they're sharing thoughts, memories, and some very vivid dreams. Not that Brady's got time to worry about his growing attraction to another guy, especially the one guy in the universe who can read his mind. It doesn't mean anything. It's just biochemistry and electrical impulses. It doesn't change the truth: Brady's alone in the universe. Now the Faceless are coming and there's nothing anyone can do. You can't stop your nightmares. Cam says everyone will live, but Cam's probably a traitor and a liar like the military thinks. But that's okay. Guys like Brady don't expect happy endings.

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. The Black Fleet Saga continues... A human planet has been invaded. The enigmatic Darshik have landed troops on a frontier world and have begun subduing major cities even as their blockade repels all attempts by the fledgling United Terran Federation to mount a counteroffensive. The Federation's military command is desperate and with their fleet still in tatters they make a last ditch effort to free the planet: They pull Captain Jackson Wolfe out of retirement and put him in command of a ship they hope can get past the beleaguered Marines and civilians fighting on the surface of the contested world. There is no reasoning with this enemy. If the Terran Federation wants their planet back, they will have to pay the price. Iron & Blood is the second book of The Expansion Wars Trilogy and the fifth book of the Black Fleet Saga.

You can take the dead girl out of the country... Veronica Fischer, small-town bloodsucking madam, is an orphan or at least she finally feels that way. Jules, the one who made her, is gone and cleaning up after him isn't something she ever thought she'd have to do. While her hometown seems to be turning against her, she's forced to set off for the bright lights of the big city with a carload of her dysfunctional supernatural family, hoping not to have to face the Dragon of Chicago. Now she has to rescue a sister she didn't know she had, keep Rachel-her adopted 8-year-old ghost-safe, and try to keep Pekin from unraveling under the onset of the coming storm. Sex, violence, and cryptic undead prophecy-all for fun and profit.

Brady Garrett is back in space, this time as an unwilling member of a team of humans seeking to study the alien Faceless and their technology. It's not the first time Brady's life has been in the hands of the Faceless leader Kai-Ren, and if there's one thing Brady hates it's being reminded exactly how powerless he is. Although dealing with the enigmatic Faceless might actually be easier than trying to figure out where he stands with the other humans on board, particularly when one of them is his boyfriend's ex. Cameron Rushton loved the starlight once, but being back on board the Faceless ship forces him to confront the memories of the time he was captured by Kai-Ren, and exactly how much of what was done to him that he can no longer rationalize away. Cam is used to being Brady's rock, but this time it might be him who needs Brady's support. This time Brady is surrounded by the people he loves most in the universe, but that only means their lives are in danger too. And when Kai-Ren's fascination with humanity threatens the foundations of Faceless society, Brady and Cam and the rest of the team find themselves thrust into a battle that humans have very little hope of winning, let alone surviving.
