With the series of iDRAC7 (Dell remote access cards), the card + nic is built into the motherboard of PowerEdge generation 12 systems. Instead of having different cards, they have multiple license options, the basic being the iDRAC Express license, with the ' top ' tier being the Enterprise license.

Idrac7 License Generator - forlassever

The Dell Remote Access Controller or DRAC is an out-of-band management platform on certain Dell servers. The platform may be provided on a separate expansion card, or integrated into the main board; when integrated, the platform is referred to as iDRAC. It uses mostly separate resources to the main server resources, and provides a browser-based or command-line interface (or both) for managing ...
