This is a compilation strictly according to the Central Council of Homeopathy (CCH) syllabus. It is in a Question Answer format which shall prove to be of utmost benefit to all undergraduate and post-graduate students of homeopathy to face academic examinations much more confidently as this book shall verse them well of how to prepare the answers and also how to format and present it in the answer script. The book will help students to easily handle examinations and they will be able to co-ordinate between time and word limit. The author has consulted all the physiology books presently available in the market in detail in the making of this book; thus, ensuring that no important concept gets missed out. The book is a must-buy for all aspiring homeopathic students.

Two volume set - a complete guide to medical physiology for undergraduate medical students. Covers both clinical and applied physiology of all anatomical systems. Includes numerous photographs and invaluable learning tools.

This exciting new book brings together the most significant information on the procedures that have generated most of the recent progress in hepatobiliary pathophysiology. The authors describe their unique experiences, including specific technical and analytical problems. Since workers in the field often specialize within a limited area, the methodology covering each of the main aspects in hepatobiliary research is particularly useful. The book also includes an exhaustive reference list.

The book presents an exhaustive and thorough exposition of the fundamentals of medical physiology. The exposition is divided systematically into three sections covering General Physiology, Systemic Physiology and Specialized Integrative Physiology. Each section begins with a brief Introduction highlighting the topics covered. The subject is then explained in a graded manner with a large number of tables, flowcharts and diagrams to aid understanding. The level of exposition in the book is sufficiently detailed for it to serve as a useful text for undergraduate courses as well as for PG entrance examinations About the Author : - Indu Khurana, Associate Professor, Department of Physiology, Postgraduate Institute of Medical Sciences, Rohtak, Haryana, India.
