increased emphasis on higher-level application questions, including exercises to encourage practice in setting priorities, to prepare you to transfer your knowledge of medical-surgical concepts to patient care in the clinical setting. Learning activities include matching (key term and vocabulary review), completion, listing, labeling (illustrations), ranking/ordering, and application questions for textbook nursing care plans. Approximately 2,000 review questions include revised as well as new standard multiple-choice and alternate-format questions. NCLEX review question answer rationales discuss both correct and incorrect responses to help you explore the logic of your choices. Prioritization activities provide practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs, including nurse aids and nurse assistants). NEW! Completely revised content matches the most up-to-date nursing diagnoses.

This book is a self-study guide written for someone who wishes to teach themselves basic financial accounting. It is based on a course by the same author that has been successfully completed by thousands of students worldwide. It explains concepts in simple language with illustrative examples, provides review questions and quizzes after each chapter and section, and contains two full-length practice exams at the end of the book. This book compares and contrasts US GAAP and IFRS for every topic covered in the book.

Now featuring a full-color design and illustrations, this popular textbook combines a clear and concise format with up-to-date coverage of nursing pharmacology. It provides a clear review of mathematics with drug calculations and a concise overview of the general principles of pharmacology. Each therapeutic drug class is covered in a straightforward format, including an application of the nursing process and consistent learning aids. Its coverage of essential pharmacology content and its clear, consistent approach will help students succeed in nursing pharmacology and excel on the NCLEX Examination, which now includes an increased emphasis on pharmacology. (Midwest).
