Pick! A magnificent new

novel from the Nobel

laureate Kazuo

Ishiguro—author of

Never Let Me Go and

the Booker Prize-

winning The Remains

of the Day. Klara and

the Sun, the first novel

Read Book

Earth Sun

by Kazuo Ishiguro since he was awarded the Nobel Prize in

Literature, tells the story of Klara, an Artificial Friend with outstanding observational qualities, who, from her place in the store, watches carefully the behavior of those who come in to browse, and of those who pass on the street outside. She remains

Read Book

Earth Sun

hopeful that a customer will soon choose her.

Klara and the Sun is a thrilling book that offers a look at our changing world through the eyes of an unforgettable narrator, and one that explores the fundamental question: what does it mean to love? In its award citation in 2017, the Nobel committee

Read Book

Earth Sun

described Ishiguro's books as "novels of great emotional force" and said he has "uncovered the abyss beneath our illusory sense of connection with the world."

With age-appropriate, inquiry-centered curriculum materials

Read Book

Earth Sun

and sound teaching practices, middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them.

Resources for Teaching Middle School Science, developed by the National Science Resources Center (NSRC), is a valuable

Read Book

Earth Sun

tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8. The volume describes more than 400 curriculum titles that are aligned with the National Science Education Standards. This completely new guide follows on the success of

Read Book

Earth Sun

Resources for Teaching Elementary School Science, the first in the NSRC series of annotated guides to hands-on, inquiry-centered curriculum materials and other resources for science teachers. The curriculum materials in the new guide are grouped in five chapters by scientific area-

Read Book

Earth Sun

Physical Science, Life Science, Environmental Science, Earth and Space Science, and Multidisciplinary and Applied Science. They are also grouped by type-core materials, supplementary units, and science activity books. Each annotation of curriculum material includes a recommended grade

Read Book

Earth Sun

level, a description of the activities involved and of what students can be expected to learn, a list of accompanying materials, a reading level, and ordering information. The curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria

Read Book

Earth Sun

developed for the guide.

The criteria reflect and incorporate goals and principles of the

principles of the

National Science

Education Standards.

The annotations

designate the specific

content standards on

which these curriculum

pieces focus. In addition

to the curriculum

chapters, the guide

contains six chapters of

Read Book

Earth Sun

diverse resources that are directly relevant to middle school science.

Among these is a chapter on educational software and multimedia programs, chapters on books about science and teaching, directories and guides to science trade books, and periodicals for teachers and students. Another section features

Read Book

Earth Sun

institutional resources.

One chapter lists about 600 science centers, museums, and zoos where teachers can take middle school students for interactive science experiences. Another chapter describes nearly 140 professional associations and U.S. government agencies that offer resources and assistance.

Read Book

Earth Sun

Authoritative, extensive, and thoroughly indexed- and the only guide of its kind-Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers, school administrators, teacher trainers, science curriculum specialists, advocates of hands-on science teaching, and
