More than 50 vessels carrying Australian coal have been stranded off China ...

Australia ' Deeply Troubled ' by China Coal Import Ban Report

Niger's economy is based largely on subsistence crops, livestock, and some of the world's largest uranium deposits. Drought cycles, desertification, a 3.4% population growth rate and the drop in world demand for uranium have undercut an already marginal economy. Traditional subsistence farming, herding, small trading, and informal markets dominate an economy that generates few formal sector jobs.
