The goods of the earth are there for everyone. The common good consists not only of the material or external good of all human beings; it also includes the comprehensive good of the human being, including even the spiritual good. The common good of society is not an end in itself. It is only part of a bigger picture, the ultimate end of which is God. The common good, as a mere materialistic socio-economic ideal, would count for little without any transcendental goal. The Common Good and Politics

The principle further states that the common good should be understood as the good of the individual and the entire humanity. The society can attain common good only when it desires and proposes to serve humanity at all levels as its basic aim. Humans cannot realize fulfillment at personal levels despite living with and for others.

The principle of common good relies on two central understandings which provide the conditions necessary to achieve the common good. 1. The human person is social by nature (born into a fabric of relationships) and needs others in order to thrive. Life is not lived in isolation but for the formation of social unity.

Principle of Common Good | Common Good | Utilitarianism

In philosophy, economics, and political science, the common good refers to either what is shared and beneficial for all or most members of a given community, or alternatively, what is achieved by citizenship, collective action, and active participation in the realm of politics and public service. The concept of the common good differs significantly among philosophical doctrines. Early conceptions of the common good were set out by Ancient Greek philosophers, including Aristotle and Plato.
