Most prospective hires come well prepared for the formulaic interview questions we have all come to expect. And not surprisingly their answers do not often distinguish them from any other applicant. So the employer is left with no choice but to take a hunch. But with High-Impact Interview Questions by your side, you will no longer have to do your best guess work on what answers are genuine, which are rehearsed, and which will end up not reflecting the employee in the least. This invaluable resource shows you how to dig deeper using competency-based behavioral interviewing methods to uncover truly relevant and useful information. When the candidate is asked to describe specific, job-related situations, the interviewer will gain a clearer picture of past behaviors--and more accurately predict future performance. Complete with advice on evaluating answers and assessing cultural fit, the second edition of this user-friendly guide features dozens of all-new questions designed to gauge accountability, assertiveness, attention to detail, judgment, follow-through, risk-taking, social media usage, and more. By interviews's end, the real person behind the résumé will be revealed and you will be able to make an offer based on accurate findings, not hopeful hunches.

The world of work has changed. People in previous generations tended to pick one professional path and stick to it. Switching companies every few years wasn't the norm, and changing careers was even rarer. Today's career trajectories aren't so scripted and linear. Technology has given rise to new positions that never before existed, which means we are choosing from a much broader set of career options—and have even more opportunities to find work that lights us up. However, we don't discover and apply for jobs the same way anymore, and employers don't find applicants the way they used to. Isn't it about time we had a playbook for navigating it all? Kathryn Minshew and Alexandra Cavoulacos, founders of the popular career website TheMuse, offer the definitive guide to the modern workplace. Through quick exercises and structured tips, you will learn:

- The New Rules for finding the right path: Sift through, and narrow today's ever-growing menu of job and career options, using the simple step-by-step Muse Method.
- The New Rules for landing the perfect job: Build your personal brand, and communicate exactly how you can contribute and why your experience is valuable in a way that is sure to get the attention of your dream employer. Then ace every step of the interview process, from getting a foot in the door to negotiating your offer.
- The New Rules for growing and advancing in your career: Mastering first impressions, the art of communication, networking, managing up and other “soft” skills – and make it obvious that whatever level you're at, you're ready to get ahead. Whether you are starting out in your career, looking to advance, navigating a mid-career shift, or anywhere in between, this is the book you need to thrive in the New World of Work.

This updated 2015 book contains a wide variety of carefully worded questions for both employers and job seekers. Determine personality types, the type of work a person is best suited for, and much more!
