Could never understand why they would send updates to machine owners as they found issues with the manuals. Sure soured me on the Hardinge experience and that was after owning HC's, AHC's, HNC's, CHNC's. 08-12-2012, 04:20 PM #4. Ox. Re: Home position problem in Hardinge cobra 42 lathe Hi man, You can redo home position for your x and z coordinates after you replace your control battery. Remember to replace your control battery once every year. Besides, you had better change your control battery according to your manual exactly.

He's interested in a Hardinge Cobra 42 & Imeca VIP 70 bare feeder combo. 10 years old 2000 hours (I assume that's cutting hours) Fanuc control (I don't know the number) I've seen the picsw, it looks very clean and unmolested - which fits in with it's background. So, your experiences and help would be much appreciated.

Hardinge Cobra-42 Comes as shown in Pictures..... MachineStation is a global trading company that specializes in the procurement and sales of Used Metalworking machinery, fabricating equipment and complete manufacturing facilities.

[HARDINGE COBRA-42—MachineStation](#)
I don't have a manual handy, so I can't tell you the param #'s. I'm not familiar with the Hardinge, but some builders put in an automatic zero return function in the control, so check the manual. The way it works on our machines is that there are reference lines on the slides. What you end up doing is lining up the marks, jog 10mm's away, then turn on a keep relay and put the machine in ZRN ...
