Rosemary oregano, marjoram, sage, lavender, thyme, and tarragon are " dry herbs " that need low amounts of water. Basil, mint, cilantro, dill, arugula, and chives are " wet herbs " that need high amounts of water. 2 Follow the packet instructions if you're planting from seed.

How to Grow an Herb Garden (with Pictures) - wikiHow

The National Herb Garden—the largest designed herb garden in the United States—showcases plants that enhance people ' s lives as flavorings, fragrances, medicines, coloring agents, and additives in industrial products. The garden exhibits these herbal plants from places and cultures around the world in theme gardens, single-genus collections, and seasonal displays for education, research, and aesthetic enjoyment.
