Covering the essential content and procedures a home care aide needs to know, Mosby's Textbook for the Home Care Aide, 3rd Edition prepares you for success in this rapidly growing field. A clear approach makes the book easy to use and understand, featuring hundreds of full-color photographs and drawings along with step-by-step procedures for skills performed by home care aides. Updated and expanded in this edition are chapters on meeting the client's nutritional needs and on getting and keeping a job. Written by home care experts Joan Birchenall and Eileen Streight, this textbook prepares you for the many types of situations you may encounter as a home care aide. Hundreds of full-color photos and drawings depict key ideas and clearly demonstrate procedure steps. Procedures provide step-by-step, easy-to-understand instructions on performing important skills and tasks. UNIQUE! A cast of caregivers, including a supervisor and four home care aides, are highlighted in scenarios that provide realistic examples of the types of situations you are likely to encounter in the home care environment. Guidelines for Observing, Recording, and Reporting (ORR) are highlighted throughout the text, emphasizing the home care aide's responsibilities for observing and documenting the client's condition and care. Key considerations and reminders are presented in color font to emphasize the importance of performing these actions. Objectives and Key Terms in each chapter focus your attention on essential information. Chapter summaries and study questions review the key points in each chapter. Updated/Expanded Meeting the Client's Nutritional Needs chapter includes the new MyPlate food guide and new nutrition guidelines. Updated/Expanded Getting a Job and Keeping It chapter reflects the job prospects and challenges of today, including the realities of moving between states and differences in certification requirements. Updated equipment photos are included. Evolve companion website includes skills competency checklists and an audio glossary.

It is my hope that this text, when properly used will be of great benefit to the individual aide or aide in training in mastering the required skills that would make the individual a good home health aide. The book has been specially tailored as a teaching tool for home health aides. The book has two sections, the tutorial section one and the practical hands on section two. The second section is a good aide or good training tool for practical demonstration purposes. For the purpose of understanding only, a home health aide does not have to be a Certified Nurses Aide. As a result this book can be used to train and prepare an individual to function in the capacity of a home health aide. The agency must prepare a set of standardized tests for the aides to ensure that the individual have fully internalized the reaching and training that they have been put through. This book further addresses the rule and regulation (federal and State) that the home health aide must be familiar with. This book is an excellent tool for the home health aide. I strongly encourage all individual who practice and plans to practice as an aide in the home health field to read this book.
