factors that all breeders should consider before getting started. The mare's age is important, as well as the number...

Breeding: Best Mare Management Practices – The Horse

For breeding, the stallion should be fitted with a well-adjusted halter with large rings

Download Free Horse Breeding And Management

that allow the chain shank to freely slide. During breeding, the stallion should be controlled adequately to prevent injury to the mare. After breeding, the penis can be rinsed with warm water to reduce contamination from the mare's genital tract.
