Thoughtful storage solutions can also simplify version control and collaboration with others. You may be required by your PI or funder to store your data in a particular place, or you may have more choices available. No matter which solution you use, the two golden rules of storage apply. Where possible, only store what you need to keep.

Looking after and sharing your data | Research Data Management

Whether it's customer data, environmental data, or even sensor data, you can organize and manage it from anywhere with ArcGIS,

empowering your team to make decisions and enhancing productivity across your organization. Make ArcGIS the center of your spatial data storage and GIS data management workflows to better collect, store, maintain, prepare, and share your data.

Data Management │ Manage, Store, Enhance & Share GIS Data

Every organisation that holds records about children or adults must have policies and procedures in place regarding the retention and storage of that information. Clear guidelines for the retention, storage and destruction of child protection records are also required as part of safeguarding policies and procedures.
