Introduction to Franchising - sba.gov

A franchise is a right granted to an individual or group to market a company's goods or services within a certain territory or location. Some examples of today's popular franchises are McDonald's, Subway, and Dunkin' Donuts. There are many different types of franchises spanning many different industries, business types, and investment levels. Franchising can be a relatively low-risk entry into business since you benefit from the training and advisory services of the franchisor as you go ...

Franchising as we know it today is widely believed to have originated with Isaac Singer in the 1850s. After Singer invented his sewing machine he encountered two main problems when introducing it to the marketplace. The first was that customers needed to be taught how to use the new invention before they would buy it.
