A woodblock print image is first designed by the artist on paper and then transferred to a thin, partly transparent paper. Following the lines on the paper, now pasted to a wooden block usually of cherry wood, the carver chisels and cuts to create the original in negative—with the lines and areas to be colored raised in relief.

Workshops — Union St Printmakers

Woodblock printing in Japan (木版画, mokuhanga) is a technique best known for its use in the ukiyo-e artistic genre of single sheets, but it was also used for printing books in the same period. Widely adopted in Japan during the Edo period (1603–1868) and similar to woodcut in Western printmaking in some regards, the mokuhanga technique differs in that it uses water-based inks—as ...
