This beautiful book is an encyclopedic, behind-the-scenes look at how the machines were designed and built containing examples of every model line built by John Deere since 1919. Matching the strong visuals is an in-depth history that includes interviews with the engineers, industrial designers, and other Deere & Co. people who designed, built, and sold the machines.

Capital Punishment examines all aspects of capital punishment in the United States. It discusses the history behind the death penalty in the United States and varying opinions about the ethics of capital punishment. Features include a glossary, further readings, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO.

This book tells small-farm and backyard poultry producers how to easily build an inexpensive professional-style "Whizbang" tub plucker. The Whizbang plucker will strip feathers (pinfeathers too) off scalded chickens, turkeys, ducks, and geese with the simple flip of a switch. It takes about 15 seconds to completely pluck the birds. The reader need not be a welder, engineer or machinest to build a Whizbang plucker--basic carpentry skills are all that's needed. A Resources chapter at the end of the book tells the reader where to find needed parts.

The third edition of this book exposes the reader to a wide array of engineering principles and their application to agriculture. It presents an array of more or less independent topics to facilitate daily assessments or quizzes, and aims to enhance the students' problem solving ability. Each chapter contains objectives, worked examples and sample problems are included at the end of each chapter. This book was first published in the late 60's by AVI. It remains relevant for post secondary classes in Agricultural Engineering Technology and Agricultural Mechanics, and secondary agriculture teachers.

This text covers both basic science and clinical aspects of the cornea and associated external diseases. In this edition the editors have incorporated relevant basic science information into the clinical science chapters. It also contains an expanded surgery section - especially refractive surgery. Emphasis on the third edition is on clinical information (the basic science has been incorporated into the clinical chapters). The clinical section has been expanded by ten per cent to reflect changes in the field.
