LAB MANUAL - Institute of Aeronautical Engineering

Put 1 measure (look at note 5 opposite) of sodium sulphate into a clean dry test tube and add about 2cm of water. Gently shake the tube. Roughly time how long it takes for the sodium sulphate to dissolve. Repeat the experiment but this time gently shake the tube in the burner flame to warm (not boil) the water.

The laboratory manual is what you would expect. The language can sometimes be confusing, making the procedures hard to follow, but the introduction to the lab is often very help and allows you recall formulas and knowledge from reading the chapters in your text book. A lot of the problems are better worded than in the previous 9th edition as well.
