This book, *Like Life*, was Lorrie Moore's second short story collection. Her first collection, *Self-Help*, was brave, you could really get the inside of a life in that one, and the stories there were written mostly in the second person, which spawned a generation of copycats. I love Moore, but *Like Life* feels like a sophomore slump. All the stories, written in the third person, have a vague theme of late-80s/90s suburban loneliness (very of its time, for better and worse).

Like Life is a younger voice of Moore's, one that might seem a bit esoteric and strange at times, but again just reading her makes me remember what made me fall in love with the short story to begin with. If you only have enough cash for one book today or you just want to see Moore at her best, get *Birds of America*.
