Over 140 million people live at high altitude (that's 7,800 feet or more above sea level), according to a study published in the Oxford Journals. Living high above sea level subjects you to hypoxic circumstances, meaning your tissues aren't adequately oxygenated due to insufficient oxygen in the blood. Oxygen deprivation can have severe and harmful effects on body cells that need to perform important biological functions.

Trotter brings to life this compelling, tell-all message of true comeback from ultimate failure and destruction. *Living Above SEE Level- The True Story of Struggle, Stress, and Success*, is a riveting myriad of tools to help any reader SEE themselves in the future and realize, "You look so much better than you do right NOW!"

The economic crash of late 2008 is just the latest evidence of the truth that many have known for so long: that too much of our modern economy is based on a house of cards. We need businesses that not only factor their impact on people and places into their equations for success but also strive to restore the communities and environments in which they operate. How can this be done? In *Living Above the Store*, Martin Melaver provides a roadmap for creating such a business. It's not only a "how to" but a "why to" that challenges business as usual to change. *Living Above the Store* brings us into the story of Melaver, Inc., a third-generation, 70-year-old family real estate business, as it evolves toward becoming a thought and product leader in sustainable business practices. It is part business management theory and part case study, where sustainable principles meet sustainable practices, always grounded in day-to-day practice. *Living Above the Store* demonstrates how to: Adopt a business model that provides for economic success while contributing to society and the environment Shape a business culture that is restorative to a workforce by helping employees realize their highest potential Leverage an ethos within a business that "ripples outward" to foster restoration of both land and community Embrace a notion of limits to growth Reframe ideas about competition, proprietary knowledge, and business success, *Living Above the Store* is for readers who care about issues of community and sustainability as well as for those who want to learn more about how a socially responsible business can first redefine, and then find, success.
