Loegering :: MAKE TRACKS

Loegering's mud bucket is a concrete hauler that easily attaches to your skid steer or track loaders quick attach. It saves time and money by decreasing the need for wheelbarrows when pouring in those hard to reach areas. With a hydraulically opened shoot the mud bucket offers precise concrete placement from the comfort of your skid loader.

Thinking of purchasing a set of VTS track system from Loegering. Looked on this site for information under Loegering VTS and after 4 pages no info, Does anyone have them and if you do what has been your experience with them? What is the repair cost involved vs a ASV undercarriage? Any comments will be appreciated.

Loegering Mfg. Co. Over-the-tire (OTT) steel tracks for skid steers offer aggressive side-hill traction in rocky or slippery side hill conditions. Suitable for mud, sand, dirt, clay, etc. without...

OTT Over-the-tire Steel Tracks From: Loegering Mfg. Co ...

Great, now that I re-read the thread I'll clarify that I thought we were talking about the over the tire loegering tracks. Since Stuve brought it up, those were the ones I used. They are not that expensive, somewhat easy to install with the strap system they supply, (loegering brand only) the machine will float over soft ground, be it sand or mud, and stability will greatly improve.
