patients with acute or chronic respiratory failure. This comprehensive and up-to-date book explores all aspects of the subject. The opening sections are devoted to theory and equipment, with detailed attention to the use of full-face masks or helmets, the range of available ventilators, and patient-ventilator interactions. Clinical applications are then considered in depth in a series of chapters that address the use of noninvasive mechanical ventilation in chronic settings and in critical care, both within and outside of intensive care units. Due attention is also paid to weaning from conventional mechanical ventilation, potential complications, intraoperative applications, and staff training. The closing chapters examine uses of noninvasive mechanical ventilation in neonatal and pediatric care. This book, written by internationally recognized experts, will be an invaluable guide for both clinicians and researchers.

Includes more than 10 maps and 20 Illustrations “ The Marines ’ heroic defense of the Khe Sanh area against numerically superior North Vietnamese forces stands out among the many battles fought to defend the Republic of Vietnam against Communist aggression. “ The enemy ’ s primary objective of his 1968 TET Offensive was to seize power in South Vietnam by creating a general uprising and causing the defection of major elements of the ARVN. In conjunction with this, the enemy apparently expected to seize by military action large portions of the northern two provinces lying just south of the Demilitarized Zone and there to set up a “ liberation government. ” The virtually unpopulated Khe Sanh Plateau, which lay astride the enemy ’ s principal avenue of

approach from his large base areas in Laos, was obviously an initial objective of the North Vietnamese Army.... “ This report provides a detailed and graphic account of events as they unfolded. It centers about the 26th Marine Regiment, the main defenders of the Khe Sanh area, who tenaciously and magnificently held off the enemy during the two-and-one-half-month siege. Yet the battle of Khe Sanh was an inter-Service and international operation. Consequently, appropriate coverage is given to the contributions of the U.S. Army, Navy, and Air Force, and to South Vietnamese regular and irregular military units, all of whom contributed to the defense of the area and to the destruction of the enemy. As Marine artillery from within the fortified positions pounded the enemy, Army artillery located to the east provided heavy, long-range fire support. Fighter aircraft from the Marines, Air Force, and Navy provided continuous
