Learning to knit can be frustrating when it takes too much time and effort to begin your first project. The Beginner's Knitting Manual introduces an array of stylish projects -- cardigans, scarves, socks, and more -- that offer a quick start. Even if you've never tried to knit, you'll find that it offers plenty of chances to make something interesting, satisfying, practical, and beautiful. Step-by-step instructions, accompanied by full-color photos and stitch patterns, are suitable for intermediate-level knitters as well as beginners. As you advance through the book, you'll notice that the patterns gradually become more complex. But they'll remain easily achievable, as your skills and confidence gradually develop. Even the more experienced will find this volume a great go-to reference for essential techniques, including cables, knitting in the round, colorwork, and much more.

Knit to Flatter is about celebrating the body you have been given and creating sweaters that make you look and feel great. Part instruction manual and part pattern collection, Knit to Flatter teaches you how to assess your shape—top-heavy, bottom-heavy, or proportional—and then knit accordingly. With a great sense of fun and acceptance, Amy Herzog presents silhouettes and styles that work with each body shape, along with four ideal sweater patterns per category. She then provides patterns for 10 more sweaters with guidelines for customizing, so they can be tailored to flatter. Each pattern is written in up to 10 sizes, and the garments are photographed on models with genuine curves. No smoke and mirrors here. Just real beauty! Praise for Knit to Flatter: “ Knit to Flatter is \$24.95 in the US, which works

out to a little more than \$1 per style, but you shouldn't expect to make all the styles in this book. What you will get is great lessons on what looks best on you and why—terrific information you can use to your own best advantage. Some people might say that sort of information is priceless.” —My Central Jersey's In Stitches blog

“Every knitter that knits sweaters should own this book. The feeling of this book is 100% body positive. Go buy it already!” —Knitty.com

“I feel like this book is one that is so needed right now. There are so many luscious knitwear patterns being designed and released these days, it's easy to rush into knitting everything that is popular. I know I've been guilty of that, and then disappointed in the end when the finished garment made me embarrassed to wear it in public. Getting more guidance on what styles would be more suitable seems like the smartest thing to do before investing a good chunk of change in a sweater's worth of yarn.” —Sweet Georgia Yarns

“There is no doubt in mind that you are bound to fall in love with more than a few of these sweaters and the techniques that bring them into being.” —The A.D.D Knitter

“If you have not rushed out to buy this book you should.” —Blue Moon Fiber Arts

“What this book really is, is the girlfriend you take when you go shopping. The one who's not afraid to say, ‘Hmmm maybe not those jeans, try these instead.’ We've got Amy. She's going to help us all get over those numbers on the tape measure, on the scale, on the tag in our clothes and focus on what works.” —Savory Knitting

with photographs and illustrations, the book puts as much emphasis on "why" as it does "how" and will guide both hand and machine knitters through the process. Part One contains individual chapters (Casting On, Increasing and Decreasing, Binding Off, Picking Up Stitches) that specifically focus on duplicating the hand knit methods on the machine - not the usual methods found in knitting machine manuals. There is an extensive chapter on machines, basic stitches and a chapter that illustrates, among other topics, beading techniques and garter bar usage. Part Two dedicates entire chapters to converting Mosaic stitches and lace designs to the machine; by hand selection or with punch cards and electronics. The Entrelac chapter features a unique method based on holding position, requiring no scrapping off. The chapter on Modular knitting covers basic "Domino" squares as well as some unique methods of joining diamond shapes. This is what some of the best hand knit designers and authors have to say about Hand Knits by Machine: "...A masterful, comprehensive, inspiring book. I love everything about it- the concepts, the illustrations, the organization." Sally Melville, author of The Knitting Experience "...this book a must for hand-knitters wanting to make the leap to the machine, as well as for machine knitters who want to add some great hand-knitting skills to their bag of tricks! Lace, entrelac and mosaic patterning are fascinating when done on the machine, and Susan gives the technical back-up to ensure success." Deborah Newton, author of Designing Knitwear. "A great resource! This volume brings the sensibilities and handcrafted details loved by hand knitters to machine knitting." Norah Gaughan, author of Knitting Nature "In Hand Knits by Machine, Susan Guagliumi guides the hand knitter through her many tips and

tricks to make a machine knit sweater look completely handmade. Clear concise directions, explicit photographs and Susan's incredible expertise will turn you into a machine knitter in no time. Bobbles, lace, cables, mosaic and color-work patterns, entrelac and more are all hand knitting techniques that Susan gives instruction for working."Kristin Nicholas, author of Knitting Today's Classics"The process of taking a hand-knit garment and recreating it with a knitting machine can be daunting at first, but with a little guidance, it can be very exciting! Hand Knits by Machine deconstructs each of the steps involved with clear and concise detail, making them understandable and achievable. As well, there are thorough explanations and instructions for techniques hand-knitters love, such as entrelac, mosaic knitting, and modular knitting, demystifying them so they can easily be accomplished with a knitting machine. This book is an excellent resource that will be referred to again and again. "Trisha Malcolm, editor Vogue Knitting Magazine
