“explain how things work,” and this success-tested training resource is written just for them. This newly revised and expanded third edition of an Artech House bestseller offers invaluable insights and tips for every stage of the selling process. This third edition features a wealth of new material, including new chapters on business-driven discovery, white boarding, trusted advisors, and calculating ROI. This invaluable book equips new sales engineers with powerful sales and presentation techniques that capitalize on their technical background—all spelled out step-by-step by a pair of technical sales experts with decades of eye-popping, industry-giant success under their belt.

This indispensable sales tool shows you the ropes of lead qualification, the RFP process, and needs analysis and discovery, and explains how your technical know-how can add invaluable leverage to sales efforts at every step. You learn how to plan and present the perfect pitch, demonstrate products effectively, build customer relationship skills, handle objections and competitors, negotiate prices and contracts, close the sale, and so much more - including how to avoid the critical selling mistakes so often made by technical pros who jump to sales. The book also addresses key career management and team-building topics, and includes detailed case studies, concise chapter summaries, and handy checklists of skill-building tips that reinforce all the career-boosting skills and techniques you learn.

Praise for Mastering the Complex Sale "Jeff Thull's process plays a key role in helping companies and their customers cross the chasm with disruptive innovations and succeed with game-changing initiatives." —Geoffrey A. Moore, author of Crossing the Chasm and Dealing with Darwin "This is the first book that lays out a solid method for selling cross-company, cross-border, even cross-culturally where you have multiple decision makers with multiple agendas. This is far more than a 'selling process'—it is a survival

guide—a truly outstanding approach to bringing all the pieces of the puzzle together." —Ed Daniels, EVP, Shell Global Solutions Downstream, President, CRI/Criterion, Inc. "Mastering the Complex Sale brilliantly sets up value from the customer's perspective. A must-read for all those who are managing multinational business teams in a complex and highly competitive environment." —Samik Mukherjee, Vice President, Onshore Business, Technip "Customers need to know the value they will receive and how they will receive it. Thull's insights into the complex sale and how to clarify and quantify this value are remarkable—Mastering the Complex Sale will be required reading for years to come!" —Lee Tschanz, Vice President, North American Sales, Rockwell Automation "Jeff Thull is winning the war against commoditization. In his world, value trumps price and commoditization isn't a given, it's a choice. This is a proven alternative to the price-driven sale. We've spoken to his clients. This stuff really works, folks." —Dave Stein, CEO and Founder, ES Research Group, Inc. "Our business depends on delivering breakthrough thinking to our executive clients. Jeff Thull has significantly redefined sales and marketing strategies that clearly connect to our global audience. Read it, act on it, and take your results to exceptional levels." —Sven Kroneberg, President, Seminario Internacional "Jeff's main thesis—that professional customer guidance is the key to success—rings true in every global market today. Mastering the Complex Sale is the essential read for any organization looking to transform their business for long-term, value-driven growth." —Jon T. Lindekugel, President, 3M Health Information Systems, Inc. "Jeff Thull has re-engineered the conventional sales process to create predictable and profitable growth in today's competitive marketplace. It's no longer about selling; it's about guiding quality decisions and creating collaborative value. This is one of those rare books that will make a difference." —Carol Pudnos, Executive director, Healthcare Industry, Dow Corning Corporation

SUPPORT: In today's digital economy, software is eating the world, and the companies with the best sales demonstrations are winning the game. Is a convincing demonstration the only thing that's standing between you and your next customer? Are you ready to make your next demo the best demo of the year? Do you feel that you can do better but don't know how? **NEVER AGAIN LOSE A DEAL YOU SHOULD HAVE WON!** Walk into every demo feeling confident and prepared Include the one critical moment that must be in every demo Hit that home run and know how to set it up Master the art of answering difficult questions Leverage the power of saying NO with ease **A BOOK WRITTEN SPECIFICALLY FOR YOU!** Avoid late nights and long sales cycles Accelerate pipeline velocity and close more deals Learn and apply the best practices in the business Know exactly what to say and do before, during and after a demo Achieve the technical win alarming, predictable consistency This book addresses the root causes of the most common mistakes made by sales engineers. Add it to your cart **NOW** to permanently improve your software demos and sales results.

Exploring how technical sales of a software product is different from general sales, this guide discusses the full range of skills needed by technical sales professionals. It also illuminates the typical tasks technical sales professionals handle, explores the role these people play on the sales team, and covers basics such as presentation skills, working in a team, time management, and more. If you believe that the answer no is but a request for more information and understand that the best closing questions are rhetorical, you understand the basic art of sales. If you can teach that art to others, you have the makings of a good sales manager.

But not all good sales managers are equal; some are forward thinking enough to be good leaders as well as managers. To be a leader you have to see failures as opportunities to learn and you have to understand the best way to respond to any challenge is to anticipate it before it arrives. In *The Art of Mastering Sales Management*, Thomas Cook shares the proven practices and principles of good salesmanship that have made him a highly successful businessman and one of the most sought-after sales trainers in the world today. Written for those managers and executives who want to elevate the performance of their entire teams in this age of globalization and minimal margins, the book provides core lessons supported with cases studies garnered during the author's 35 years of hands-on experience over a diversity of businesses. This engaging and timely volume: Explores the current world events that are changing the art of selling Provides proven strategies, techniques, and tips for higher-end sales personnel and those who manage them Looks at ways to provide exemplary leadership during uncertain times Offers a daily regimen that will turn success into the result of practiced habit Change has become an absolute constant in the business world. That's good news for those who are prepared to respond rather than merely react. *The Art of Mastering Sales Management*, will help you become a creative problem-solver. Heed its advice and turn your sales people from common employees into contributing committed stakeholders.

Have you ever seen a bad software demo ? Peter Cohan helps organizations put the Wow! into their demos to make them crisp, compelling and successful - to get the job done. He has had roles in four corners: technical, product and field marketing (he was banished to Basel, Switzerland for two years for bad behavior); sales and sales management; senior management (he built a business unit up from an empty spreadsheet into a \$30M per year

operation); and, in this last role, he has been that most important of all possible entities, a customer Peter Cohan leverages twenty-five years of experience in selling and marketing business software and as a customer. The Great Demo! method comes directly from extensive firsthand experiences in developing and delivering software demonstrations, and in coaching others to achieve surprisingly high success rates with their sales and marketing demos. For more information on demonstration methods, guidelines and tips, explore the author's website at www.SecondDerivative.com or contact the author directly at PCohan@SecondDerivative.com.

To live is to communicate, and to communicate with confidence is a craft that one will do well to master early rather than later in life. If only the gift of the gab were enough to sail smoothly through the rough waters that the tough world is teeming with, every glib conversationalist would have a successful vocation, but that's not the case. The means of communication come naturally to human beings, but the skills that make communicating worthwhile and meaningful do not. Thankfully, anyone who wishes to can learn—and even perfect—these skills. This concise handbook focuses on the ways in which students can develop a robust career after completing their academic studies. The foundational work of nurturing and strengthening individual abilities begins during university life, but these skills need to be complemented with strategies that help the student turned professional to not only interact well with society but also earn its respect through clear, precise, and honest communication. Talent needs to be matched with competence, and the book shows exactly how one goes about doing that. It spells out the ingredients of a sound and strategic action plan that definitively aligns one's goals with one's aspirations, no matter how lofty. This plan has to be closely related to the choices, conditions, and possibilities that will be available for the kind of education and experience that individuals have and the

aspirations they harbor. Students entering high school or university can use the book to review the necessary courses to choose during their academic life. Young people will find solid guidelines in it that provide a structure for planning and focusing on the skills needed when one embarks upon a fulfilling career.

John Care and Chris Daly lay out the 3+1 rules of SE Leadership. A simple framework designed for everyone - from SEs thinking about moving into management to the newest of new SE Managers to a Global SE Vice President. This is a fascinating blend of tactical and strategic advice based on 30+ years of experience and many years of running SE specific workshops. All designed to allow you to follow the 3+1 Rules: Develop And Serve Your People, Run Pre-Sales As A Business, and Serve Your Customers all matched up with Rule #0 Manage Yourself. It's a common and often repeated story. You take a rock star Sales Engineer who is highly valued for their sales and business skills - and make them a manager because they are a great SE. With no regard for their possible leadership skills whatsoever. Perhaps they are pointed at a few online HR resources and take a mandatory "Managing Within The Law" session. Then they are released into the wild, and asked to manage, lead and motivate a team of Sales Engineers - each of whom performs the job differently than the newly minted manager used to do.
