2014 National Competition Answer Key
The target round should have problems from all four subjects. Once the test has been released, it is usually a good idea to keep the answers from being released at the same time. This can help prevent cheating, and also gives the problem solvers more time to make sure the problems are solved correctly.

Mock MathCounts - Art of Problem Solving
The target round consists of 8 problems with 4 pairs of 2 questions each You will have 6 minutes to complete each pair on this competition. You are allowed to use calculators, but no other aids are allowed. If you finish before tie is called, use the remaining time to check your answers.

Target Round | MathCounts Wiki | FANDOM powered by Wiki

Math Jokes 4 Mathy Folks is an absolute gem.....Jim Rubillo Professor Emeritus, Bucks County Community College, Newtown, PA The jokes in this book are well-chosen and cover a wide spectrum, from jokes for kids to jokes for math majors, from corny to thought-provoking---Art Benjamin Professor and Mathemagician, Harvey Mudd College, Claremont, CA This is a book that every math teacher from elementary school through college should have in their classroom library. Who said math can't be funny?---Victoria Miles, Middle Grades Math Teacher, Weymouth, MA Patrick Vennebush has put together the most comprehensive set of mathematical jokes I have ever seen. If you like math and you like jokes---or if you need a joke to liven up an otherwise dull and boring lecture---then you need to buy this book ---Guy Brandenburg, Retired Teacher, Washington, DC Math nerds and punsters rejoice! This is the book you've been waiting for---your perfect source for that one-liner to impress your girlfriend, boyfriend, or 8th-grade math teacher. ---Cathy Seeley, Past President, NCTM, Author of Faster isn't Smarter---Messages About Math, Teaching and Learning in the 21st Century I haven't laughed so hard since I discovered that imaginary numbers are just numbers with a not-so-real complex. Enjoy!--Edward B. Burger Professor, Williams College Williamstown, MA When not solving problems, telling jokes, or playing ultimate, G. Patrick Vennebush manages online projects for the National Council of Teachers of Mathematics. He has an M.A. in curriculum and instruction from the University of Maryland. He lives in northern Virginia with his wife Nadine, who faughs at 80% of his jokes, his twin toddlers Alex and Eli, who only appreciate 20% of his humor, and his golden retriever Remy, who has never been very good with percents
