Engineering Challenges: Solve Real-Life Technical ...

Engineers, too, go through their days with an engineering mindset, at home and at work. They see problems. They brainstorm solutions. They innovate. They create. They test their designs, and when things don't work or could be better, they try again. (See the engineering design process.) Engineers know that by brainstorming, problem solving, and testing, they can solve problems, create exciting new things, or improve upon things that already exist.

Engineering a Solution to an Everyday Problem | Science ...

Mechanical engineers are currently trying to solve a vast number of problems. Every engineering research and design project is attempting to solve a problem. If there was already a solution, they wouldn't be doing it. Some of the biggest ones are how to: generate the most power from waves and tides. make the internal combustion engine more efficient, both gas and diesel.
