The Wards Medical Practice

Review titled My excellent care on the ward . by Stokecity1 - Posted on 27 July 2020 I had a ruptured appendix followed by sepsis and a stomach abscess and was obviously very poorly. During this very scary time the staff of 108 from the tea makers, trainees, nurses, staff nurses and consultants treated me with compassion, care and more importantly got me back to some kind of normality.

Medical ward rounds require the concerted, coordinated collaboration of several healthcare professionals. However, the modern hospital environment has multiple challenges and barriers to effective team working that must first be negotiated.

Ward rounds in medicine Principles for best practice

The study was carried out in a specific medical ward, at a specific university hospital, in a large city in Sweden. Having only conducted fieldwork in one ward could be seen as a limitation for generalisability. However, the results were not intended to be representative of medical wards inside or outside of Sweden.

Everyday practices at the medical ward: a 16-month ...

"I cannot speak too highly of the kindness, care and attention I received from the medical, nursing and ancillary staff during my time in hospital. No matter how unpleasant the side effects of my condition they all without exception, remained courteous, pleasant and cheerful." Mr BB. Send us your comments
