Instant National Bestseller! Wall Street Journal and USA Today Bestseller! Three-time New York Times bestseller Adam Carolla is back to take on social media, social justice warriors, and a society gone to s**t. As seen on Fox News's Fox & Friends! "As the revolution reaches its final, most humorless stage, there's no better, braver, or more insightful observer than Adam Carolla. You may feel despondent about what's happening right now. This book will remind you that you should also be amused."—Tucker Carlson In I'm Your Emotional Support Animal, Adam Carolla examines how our culture went careening off a cliff. We used to have one that created real warriors who fought world wars. Now it spawns social justice warriors who fight Twitter wars. He takes on those who are traumatized by Trump and "emotional support animal" owners who proclaim their victimhood at every airport. He stands up for the collateral damage of the #MeToo movement and for freedom of speech on "safe space" filled college campuses. Examining the calculated commercials churned out by Madison Avenue, like the ones about cars "made with love," Carolla rants on ads designed to either bum us out or make us think the corporation is run by Mr. Rogers. Turning to social media, Adam takes down the "hashtag heroes" who signal their virtue daily from atop Twitter mountain. And in the era of the Roomba, performances by dead celebrity holograms, and meals-on-demand delivery services, he looks down the road at our not-so-bright future as a species. "Adam and I agree on absolutely nothing but he's a sharp, smart, funny guy to disagree with. And there's a human heart under all the gruffness, snark, and melted cheese."—Patton Oswalt Frank, funny, and utterly unapologetic, this is not a book for those who need a trigger warning, but is THE book for everyone who wants to hit the snooze bar on the "woke" culture.

ARE YOU LIVING A SUCCESSFUL LIFE? Do you have a vision? Do you enjoy your work? Are your relationships thriving? Success Intelligence examines how to enjoy real, soulful success while living in a manic, busy, and hyped-up world. Robert Holden is the creator of a unique program—called Success Intelligence—used worldwide by artists and writers, entrepreneurs and leaders, and also global companies and brands such as DOVE, the Body Shop, the BBC, and Virgin. This landmark book is an invaluable guide to genuine success and happiness.

Japan's Holy War reveals how a radical religious ideology drove the Japanese to imperial expansion and global war. Bringing to light a wealth of new information, Walter A. Skya demonstrates that whatever other motives the Japanese had for waging war in Asia and the Pacific, for many the war was the fulfillment of a religious mandate. In the early twentieth century, a fervent nationalism developed within State Shint?. This ultranationalism gained widespread military and public support and led to rampant terrorism; between 1921 and 1936 three serving and two former prime ministers were assassinated. Shint? ultranationalist societies fomented a discourse calling for the abolition of parliamentary government and unlimited Japanese expansion. Skya documents a transformation in the ideology of State Shint? in the late nineteenth century and the early twentieth. He shows that within the religion, support for the German-inspired theory of constitutional monarchy that had underpinned the Meiji Constitution gave way to a theory of absolute monarchy advocated by the constitutional scholar Hozumi Yatsuka in the late 1890s. That, in turn, was superseded by a totalitarian ideology centered on the emperor: an ideology advanced by the political theorists Uesugi Shinkichi and Kakehi Katsuhiko in the 1910s and 1920s. Examining the connections between various forms of Shint? nationalism and the state, Skya demonstrates that where the Meiji oligarchs had constructed a quasi-religious, quasi-secular state, Hozumi Yatsuka desired a traditional theocratic state. Uesugi Shinkichi and Kakehi Katsuhiko went further, encouraging radical, militant forms of extreme religious nationalism. Skya suggests that the creeping democracy and secularization of Japan's political order in the early twentieth century were the principal causes of the terrorism of the 1930s, which ultimately led to a holy war against Western civilization.

"An introduction to the basics of short-term trading, including what the floor traders know and how their knowledge affects your trades, is immediately followed by the core principles and strategies associated with the short-term, hit-and-run approach to the market known as "sniper" trading. curvilinear coordinates. This treatment includes in particular a direct proof of the three-dimensional Korn inequality in curvilinear coordinates. The fourth and last chapter, which heavily relies on Chapter 2, begins by a detailed description of the nonlinear and linear equations proposed by W.T. Koiter for modeling thin elastic shells. These equations are "two-dimensional", in the sense that they are expressed in terms of two curvilinear coordinates used for de?ning the middle surface of the shell. The existence, uniqueness, and regularity of solutions to the linear Koiter equations is then established, thanks this time to a fundamental "Korn inequality on a surface" and to an "in?nit- imal rigid displacement lemma on a surface". This chapter also includes a brief introduction to other two-dimensional shell equations. Interestingly, notions that pertain to di?erential geometry per se,suchas covariant derivatives of tensor ?elds, are also introduced in Chapters 3 and 4, where they appear most naturally in the derivation of the basic boundary value problems of three-dimensional elasticity and shell theory. Occasionally, portions of the material covered here are adapted from - cerpts from my book "Mathematical Elasticity, Volume III: Theory of Shells", published in 2000by North-Holland, Amsterdam; in this respect, I am indebted to Arjen Venster for his kind permission to rely on such excerpts. Oth- wise, the bulk of this work was substantially supported by two grants from the Research Grants Council of Hong Kong Special Administrative Region, China [Project No. 9040869, CityU 100803 and Project No. 9040966, CityU 100604].
