For undergraduate Introductory Management Information Systems courses. Exploring how people use IS to solve business problems, this engaging introduction explains why MIS is the most important course in the business school-showing students how businesses use information systems and technology to accomplish their goals, objectives, and competitive strategy. Three unique Guides per chapter focus on the themes of ethics, security, and other timely topics; a number of illustrative cases, exercises, projects, and other aids ensure that students connect the knowledge in the text to everyday life. With a new edition now publishing each year, MIS Essentials, Fourth Edition contains fresh, new, and current material to help keep your students up to date. Teaching and Learning Experience This program will provide a better teaching and learning experience-for you and your students. Here's how: Personalize learning with MyMISLab-the online homework, tutorial, and assessment program that fosters learning within and beyond the classroom. Focus on important themes of ethics, security, and other timely topics through text's Guides, designed to help students improve their skills as future business professionals. Connect classroom knowledge to everyday life with illustrative cases and a number of exercises and other interactive features. Keep content current to help keep your students up to date with the most recent events. Note:You are purchasing a standalone product; MyMISLab does not come packaged with this content. If you would like to purchase both the physical text and MyMISLab search for ISBN-10: 0133807479 / ISBN-13: 9780133807479. That package includes ISBN-10: 0133546594 / ISBN-13: 9780133546590 and ISBN-10: 0133591328 / ISBN-13: 9780133591323. MyMISLab is not a self-paced technology and should only be purchased when required by an instructor.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- For undergraduate Introductory Management Information Systems courses. For undergraduate Introduction to Management Information Systems courses. Flexible modules for instructors, real-world lessons for students. Help your students see why MIS is the most important course in the business school with Experiencing MIS. This modular text shows students how businesses use-and need-information systems to accomplish their goals, objectives, and competitive strategy. Teaching and Learning Experience This program will provide a better teaching and learning experience-for you and your students. Here's how: Personalize learning with MyMISLab-the online homework, tutorial, and assessment program that fosters learning within and beyond the classroom. Modular Approach offers flexibility for instructors in covering the material they want. Focus on important themes of ethics, security, and other timely topics through text's Guides, designed to help students improve their skills as future business professionals. Connect classroom knowledge to everyday life with illustrative cases and a number of exercises and other interactive features. Keep content current to help keep your students up to date with the most recent events. Note: You are purchasing a standalone product; MyMISLab does not come packaged with this content. If you would like to purchase both the physical text and MyMISLab search for ISBN-10: 0133806898/ISBN-13: 9780133806892. That package includes ISBN-10: 0133546438/ISBN-13: 9780133546439 and ISBN-10: 0133548511/ISBN-13: 9780133548518. MyMISLab is not a self-paced technology and should only be purchased when required by an instructor.

For undergraduate Courses in Management Information Systems MIS Essentials provides instructors with a brief text that will cover the basics of how information systems are used to solve business problems. In the 21st Century, every business professional must be able to effectively use information systems, and MIS Essentials prepares students to do just that. Based on the author's successful Experiencing MIS, this text presents the core concepts and relevant outside topics of MIS for professors to cover in a one-semester course.

F or undergraduate Introductory Management Information Systems courses. Exploring how people use IS to solve business problems explains why MIS is the most important course in the business school by showing students how businesses use information systems and technology to accomplish their goals, objectives, and competitive strategy. Included are three unique Guides per chapter focusing on the themes of ethics, security, and other timely topics; plus a number of illustrative cases, exercises, projects, and other aids to ensure that students connect the knowledge in the text to everyday life. With a new edition now publishing each year, Using MIS contains fresh, new, and current material to help keep your students up to date. Teaching and Learning Experience This program will provide a better teaching and learning experience-for you and your students. Here's how: Personalize learning with MyMISLab-the online homework, tutorial, and assessment program that fosters learning within and beyond the classroom. Focus on important themes of ethics, security, and other timely topics through the text's Guides, designed to help students improve their skills as future business professionals. Connect classroom knowledge to everyday life with illustrative cases and a number of exercises and other interactive features. Keep content current to help keep your students up to date with the most recent events. Note: You are purchasing a standalone product; MyMISLab does not come packaged with this content. If you would like to purchase both the physical text and MyMISLab search for ISBN-10: 0133806898/ISBN-13: 9780133806892. That package includes ISBN-10: 0133546438/ISBN-13: 9780133546439 and ISBN-10: 0133548511/ISBN-13: 9780133548518. MyMISLab is not a self-paced technology and should only be purchased when required by an instructor.

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Student Value Editions also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. For Student Value Editions that include MyLab(tm) or Mastering(tm), several versions may exist for each title-including customized versions for individual schools--and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use MyLab or Mastering platforms. For introductory courses in Management Information Systems A process focus that's engaging, relevant, and easy to teach Transform your MIS course with Processes, Systems, and Information: An Introduction to MIS - a hands-on, process approach to business. Earl H. McKinney, Jr., and David M. Kroenke show students exactly how businesses use information systems and technology to create competitive strategies, support business processes, and accomplish their goals. Complete with numerous examples of business situations, this book helps students understand what business systems actually are and why they're so important. In the 3rd Edition, you'll find a reflection of the current technological landscape, coverage of technology new to the business scene, and a strong emphasis on security. Its clear and concise presentation, within the process context, makes Processes, Systems, and Information the ideal book for majors and non-majors alike. Non-majors will see the vital role IS plays in supporting their business process. Also available with MyLab MIS MyLab(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. And, with Decision-Making Mini Simulations and Auto-Graded Excel and Access Projects, students learn how MIS concepts will help them succeed in their future careers. Note: You are purchasing a standalone product; MyLab MIS does not come packaged with this content. Students, if interested in purchasing this title with MyLab MIS, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the Student Value Edition and MyLab MIS, search for: 0134873513 / 9780134873510 MyLab MIS with Pearson eText for Processes, Systems, and Information: An Introduction to MIS, Student Value Edition-- Access Card Package, 3/e Package consists of: 134827082 / 9780134827087 Processes, Systems, and Information: An Introduction to MIS, Student Value Edition 013486722X / 9780134867229 MyLab MIS with Pearson eText -- Access Card -- for Processes, Systems, and Information: An Introduction to MIS
