~~1985 New Holland 630 - Round Balers - Holland, MI~~

The baler is a New Holland 630 bought new in 1990. I have been baling the hay the last 3 years since my step-dad got sick then died so i dont have lots of experience. The problem is the hay is getting thrown out the top of the baler and hung between the rollers and the belts, causing the belts to jump track. It is also coming out the top of the baler and sitting and hanging up on top the baler above where the twine sits.
