Assembling more than 30 primary documents — including proposals, memoranda, decrypted messages, and imperial conferences — Iriye presents diplomatic exchanges from both American and Japanese perspectives to determine how and why the United States and Japan went to war in 1941. A detailed introduction provides background on Japanese aggression in China and Southeast Asia during the 1930s and economic unrest and isolationism in the United States. Readings add an interpretive dimension, placing Pearl Harbor in global context; essays from American, Japanese, Chinese, Soviet, German, British, and Indonesian perspectives explain how various countries applied pressure, offered assistance, exacerbated rifts, and significantly affected negotiations and Japan ' s ultimate decision for war.

Assembling more than 30 primary documents — including proposals, memoranda, decrypted messages, and imperial conferences — Iriye presents diplomatic exchanges from both American and Japanese perspectives to determine how and why the United States and Japan went to war in 1941. Readings add an interpretive dimension, placing Pearl Harbor in global context; essays from American, Japanese, Chinese, Soviet, German, British, and Indonesian perspectives explain how various countries applied pressure, offered assistance, exacerbated rifts, and significantly affected negotiations and Japan ' s ultimate decision for war.

This is a probing narrative of the history which came to its climax at Pearl harbor; an account of the attitudes and actions, of the purposes and persons which brought about the war between the United States and Japan. It is full and impartial. Though written as an independent and private study, records and information of an exceptional range and kind were used in its making. These give it authority. They include all the pertinent State Department papers; the American official military records in preparation; selections from the Roosevelt papers at Hyde Park; the full private diaries of Stimons, Morgenthau, and Grew; the file of the intercepted "Magic" cables; and equivalent collections of official and private Japanese records. The author was at the time in the State Department (as Adviser on International Economic Affairs) and thus in close touch with the men and matters of which he writes. In telling how this war came about, this book tells much of how other wars happen. For it is a close study of the ways in which officials, diplomats, and soldiers think and act; of the environment of decision, of the ambitions of nations, of the clash of their ideas, of the way sin which fear and mistrust affect events, and of the struggle for time and advantage. The narrative follows events in a double mirror of which one side is Washington and the other Tokyo, and synchronizes the images. Thus it traces the ways in which the acts and decisions of this country influenced Japan and vice versa. Originally published in 1950. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

"A Pulitzer Prize-winning reporter chronicles the 12 days leading up to the Japanese attack on Pearl Harbor, examining the miscommunications, clues, missteps and racist assumptions that may have been behind America's failure to safeguard against the tragedy,"--Novelist.

" A valuable reexamination " (Booklist, starred review) of the event that changed twentieth-century America—Pearl Harbor—based on years of research and new information uncovered by a New York Times bestselling author. The America we live in today was born, not on July 4, 1776, but on December 7, 1941, when an armada of 354 Japanese warplanes supported by aircraft carriers, destroyers, and midget submarines suddenly and savagely attacked the United States, killing 2,403 men—and forced America ' s entry into World War II. Pearl Harbor: From Infamy to Greatness follows the sailors, soldiers, pilots, diplomats, admirals, generals, emperor, and president as they engineer, fight, and react to this stunningly dramatic moment in world history. Beginning in 1914, bestselling author Craig Nelson maps the road to war, when Franklin D. Roosevelt, then the Assistant Secretary of the Navy, attended the laying of the keel of the USS Arizona at the Brooklyn Navy Yard. Writing with vivid intimacy, Nelson traces Japan ' s leaders as they lurch into ultranationalist fascism, which culminates in their scheme to terrify America with one of the boldest attacks ever waged. Within seconds, the country would never be the same. Backed by a research team ' s five years of work, as well as Nelson ' s thorough re-examination of the original evidence assembled by federal investigators, this page-turning and definitive work " weaves archival research, interviews, and personal experiences from both sides into a blow-by-blow narrative of destruction liberally sprinkled with individual heroism, bizarre escapes, and equally bizarre tragedies " (Kirkus Reviews). Nelson delivers all the terror, chaos, violence, tragedy, and heroism of the attack in stunning detail, and offers surprising conclusions about the tragedy ' s unforeseen and resonant consequences that linger even today.
