Collection Details : Plastic and Reconstructive Surgery

Plastic surgery is a surgical specialty involving the restoration, reconstruction, or alteration of the human body. It can be divided into two main categories: reconstructive surgery and cosmetic surgery. Reconstructive surgery includes craniofacial surgery, hand surgery, microsurgery, and the treatment of burns. While reconstructive surgery aims to reconstruct a part of the body or improve its ...

Plastic surgery - Wikipedia

The term "plastic surgery" originates from the Greek word "plastikos," which means to mold or shape. The field of Plastic Surgery can be broken down into two main categories – reconstructive procedures and cosmetic procedures. Both are generally considered sub-specialties of plastic surgery.

What's the difference between reconstructive and cosmetic ...

Reconstructive plastic surgery is usually carried out free of charge on the NHS. But availability varies around the country and is determined by local clinical commissioning groups (CCGs) . Plastic surgeons have extensive training and belong to professional associations, such as the British Association of Plastic Reconstructive and Aesthetic Surgeons (BAPRAS) .
