The short story "The Law of Life" by Jack London is a study on the human psyche, as one faces the familiar cycle of life and death. Old Koskoosh, who is the father of his Native American tribe's chief, is dying. As his people leave him and he lays on the ground in his final hours to wait for his end, he looks back on his life. Memorable events fill his thoughts until the very end - even until the wolves arrive. The short story is one of London's stories inspired by the period the writer spent at the Klondike Gold Rush in the late 19th century and was published in the early 20th century. Jack London (1876-1916) was an American writer and social activist. He grew up in the working class, but became a worldwide celebrity and one of the highest paid authors of his time. He wrote several novels, which are considered classics today, among these 'Call of the Wild', 'Sea Wolf' and 'White Fang'.

Renowned American humorist Mark Twain turns his incisive wit loose on his own life story in this unique take on the nineteenth-century memoir. Originally composed in a format that studiously ignored the careful chronological structure that most autobiographies follow, these essays were first published in book form ten years after the author's death. Twain fans will love the author's account of his quintessentially American upbringing, wildly zig-zagging career path, and gradual transition into the writing life.

Covers the history to 1647.
